

Need to test the safety of appliances?

Get the right PAT tester for the job

The essential checklist for fast and easy PAT/EET testing

- Cover all bases with the capability to test not just appliances, but mains extension leads too
- Choose a small lightweight design for maximum portability, with a backlit display for all locations
- Look out for easy-to-read help guides on the tester or on-screen
- Go for one-button operation for easy testing
- Readily available accessories for all applications
- Choose clear PASS / FAIL indication with test results on-screen for record keeping
- Select USB-C charging for maximum productivity and low running costs
- Include a tough and durable carry case which allows for testing without the need to unpack and repack
